

ROOFING CONSIDERATIONS IN BUILDING DESIGN

Presented Locally By:
Heartland Arch. Products
405-470-7385 [information calls]

This 2014 half day educational seminar serving Pastries, snacks, coffee and drinks will be on:

Wednesday, July 9, 2014
From 8:00am to 12:30pm

Tulsa Tech
Career Service Center (CAC)
3420 S Memorial Drive
Tulsa, OK 74145
Room: Section A

4.0 HSW Hours of Continuing Education

SEMINAR TOPICS

Our presentations cover a wide spectrum of important architectural related issues including— **Insulation options and requirements, Single-Ply roofing options, Roofing Warranties in's and out's, and Metal Roofing systems and methods.** — these are only a few of topics we will actively engage. Because interaction is a big part of our program, you're assured your specific needs will get the personal attention they deserve.

This presentation is developed for you,

Architects, Specifiers, and Owners who play a critical role when selecting the appropriate products and systems for a building. You will find this program to be an invaluable educational opportunity.

This will be your source for comprehensive knowledge on the latest trends and solutions available. From systems options, materials and components, to elements of environmental design and more, we will help keep you on pace with all your architectural projects.

Location:

Tulsa Tech
Career Service Center (CAC)
3420 S Memorial Drive
